

## **Automotive Technology Training Programs**

### **Heavy Vehicle Maintenance and Repair**

### **Who is Heavy Vehicle Maintenance and Repair for ?**

They are for candidates wanting to develop some of the key skills and understanding in motor vehicle systems. Successful candidates will have the skills needed to apply for an automotive apprenticeship or similar engineering pathway. These qualifications could also be used as an 'interest' course for a wide range of learners.

### **What do the qualifications cover?**

They allow candidates to learn, develop and practise the skills required for employment and/or career progression in the automotive industry.

### **What will they get out of it?**

This course provides candidates with the full knowledge needed in heavy vehicle maintenance and repair in the automotive industry. Delegates will be certified from a recognized awarding body (City Guilds) which will add a high value and potential to perform their job in a professional way.

### **Entry Requirements**

Applicants who are interested and seeking admission to technical training program should:

- ① Medically fit .
- ② Have General Education Certificate or its equivalent .
- ③ Have minimum scores of 4.5 in International English Language Testing System (IELTS) with writing minimum 4 or a TOEFL equivalent or an equivalent international certification
