

HSE Training Programs IOSH Managing Safely

Who is Managing Safely for?

Managing Safely is for managers and supervisors in any sector, and any organisation. It's designed to get managers up to speed on the practical actions they need to take to handle safety and health in their teams.

What will they get out of it?

Delegates will learn what they need to know and are perhaps reluctant to learn about in a refreshingly informal way. Managing Safely won't turn delegates into safety experts but it will give them the knowledge and tools to tackle the safety and health issues they're responsible for. Importantly, it brings home just why safety and health is such an essential part of their job.

And the end results are...

- Fewer hours lost due to sickness and accidents, resulting in greater productivity
- Improved, company-wide safety awareness culture and appreciation for safety measures
- Proactive staff involvement to improve the workplace - enhanced reputation within the supply chain
